Planning and monitoring software for manufacturing companies

YOUR PRODUCTION IN CONTROL

Does planning and managing production take a lot of time and effort? Is your production still too much of a black box? Do bottlenecks and long lead times mean that you don't deliver to the customer on time often enough? Then PROPOS software is the solution you are looking for.

WHAT IS PROPOS?

PROPOS is an MES system for production planning and shop floor control, based on principles of Lean and QRM. PROPOS is connected to your ERP system and takes care of the planning and control of production orders, improving the flow and increasing delivery reliability. A better result with less effort.

PROPOS PROVIDES:

- Shorter lead times
- Improved delivery reliability
- Lower overhead, WIP and inventory
- More peace on the shop floor and autonomy
- Unique strategic insights for process improvement
- Real-time insight into the production status
- Paperless orders, article prints and videos
- Smart factory by the ability to link with other applications
- One system for your entire company

PROPOS cooperates optimally with, among others:

Microsoft Dynamics NAV   Microsoft Dynamics 365   V5 Plan-de-CAMpagne   mkg   RIDDER   SAP   =exact

TOTAL SHOP FLOOR CONTROL

PROPOS goes beyond fully automatic planning. Our software visualizes the right information at the right time for the entire company. Operators know which order has priority thanks to easy-to-use factory screens, your planner and sales department have real-time visibility into the status of each order and the unique data insights PROPOS provides promote continuous process improvement.

ONE SYSTEM FOR YOUR ENTIRE COMPANY

Using additional modules such as employee registration, POLCA and workload balancing, you can set up your digital factory as you wish. Thanks to custom apps, you can also integrate any desired functionality into PROPOS. This way, the system connects exactly to your other processes and software.

IS PROPOS SUITED FOR YOUR FACTORY?

PROPOS is particularly suited for medium-sized production companies with step production and a lot of variation in orders, routes or operations. Is PROPOS a match for your company? Then please contact us for a no-obligation advice.
